

Turtle Candy

Small pretzels
Soft caramels (I use Kraft)
Melted Chocolate chips (optional)
Pecan halves

- ✚ Unwrap the caramels. Arrange pretzels on a microwave safe plate and top each with caramel candy
- ✚ Put the plate in a microwave to soften the caramels, appx 1.5 – 2 minutes
- ✚ As soon as the caramel soften, drip some melted chocolate over each and press pecan halves in to spread the melted caramel with chocolate over the pretzel
- ✚ Let the candies sit for a little to firm up (putting it in the fridge would speed up the process)
